

BARDA Industry Day Boston

TECH WATCH

Tony Richardson

Contract Specialist

October 18, 2011

- Inform the Government about current countermeasures emerging for preparedness and response
- Companies receive guidance on possible next steps in development of their countermeasure product
- TechWatch meetings are organized by Strategic Science Technology
- Attendance are Scientific SME's, project management (ASPR, BARDA, NIH, FDA, CDC, DoD) and contracting staff to ensure the procurement integrity guidelines
- TechWatch meetings are for informational purposes only
- Serves as a forum for market research which gather information to help planning the future requirements and solicitation for countermeasure R&D procurement.
 - Note: Success rate for companies applying for BAA's are twice as likely for companies who come in for TechWatch then those who don't.
